

Commodity Specific EXIM Report

The weekly EXIM Report published by ITJ (Indian Trade Journal) Division of DGCI&S, Kolkata presents some basic insights into India's export and import trade patterns w.r.t. select set of commodities identified each week in order to facilitate preliminary commodity group/sector specific analysis as inputs for better policy making.

2. As per prevalent practice, for both categories of trades two sets of commodities are chosen each week from the entire ITC-HS 4 Digit Classification (latest being 2022 classification). The Indian Trade Classification based on Harmonized System has been adopted in India for Export and Import Operations. While India specific data is sourced from DGCI&S, M/o C&I Database, global export-import data of exactly those sets of commodities are sourced from UN-COMTRADE Database.

3. As regards the time-period, this report outlines trade statistics over a period of four years. Currently (for reports being prepared in FY 2023-24) we are considering the time-period of 2019-2022.

4. In the instant report [2nd weekly Report of November, 2023 dated November 8, 2023] the following four commodities have been dealt with

Export

- a. Unmanufactured/Raw Tobacco (ITCHS Code- 2401)**
- b. Women's Shirts or Blouses (ITCHS Code – 6206)**

Import

- a. Colloidal Precious Metals (ITCHS Code – 2843)**
- b. Electric Generating Sets and Rotary Converters (ITCHS Code – 8502)**

EXPORT

a. Unmanufactured/Raw Tobacco (ITCHS Code- 2401)

Tobacco scientifically known as *Nicotianatabacum* (and to a limited extent Aztec tobacco) is used usually after aging and processing in various ways for smoking, chewing, snuffing, and extraction of nicotine. Though tobacco is tropical in origin, it is grown throughout the world. The cultivation of Tobacco and its trading as a major Cash crop has evolved over the centuries; however, because of the several wealth risks caused by tobacco consumption especially in the form of cigarettes the World Health Organization successfully rallied 168 countries to sign the Framework Convention on Tobacco Control in 2003.

Every year, about 5.9 million tons of tobacco are produced throughout the world. The top producers of tobacco are China (36.3%), **India (12.9%)**, Brazil (11.9%) and Zimbabwe (3.5%).

Leading Importers of unmanufactured Tobacco globally from 2019 to 2022
Data labels signified for 2022

World's 5 leading importers of unmanufactured Tobacco by percentage share in 2022

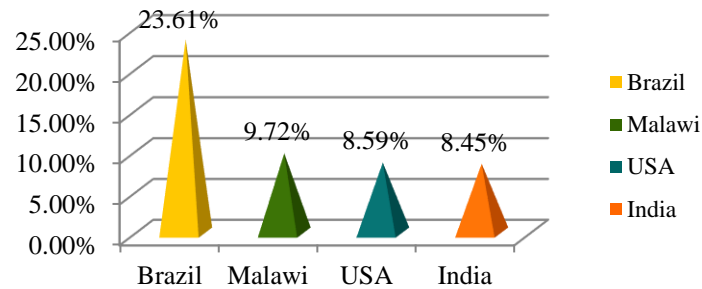

The Unmanufactured Tobacco imports worldwide was US\$ 9251.85Million in 2022, declining by 4.26% from 2021 levels. Over the period under review (i.e. 2019-2022), global imports were at record high at US\$ 10523.88Million in 2019. The lead importers in this segment in 2022 have been China (14.60%), Germany (9.91%), and Poland (6.70%) and India with a share of only 0.23% of total imports of unmanufactured tobacco occupied the 51st position and between 2019-2022, India's import share has consistently remained below 0.50 % mark.

Annexure-1

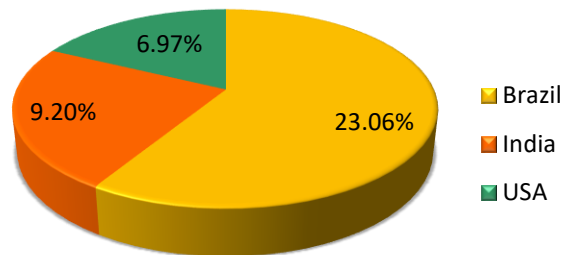

As per UN Comtrade database the top 3 importers of unmanufactured Tobacco globally were China, Germany and Poland.

Of these 3 countries, Germany and Poland have imported 8.45% and 9.20% share of unmanufactured Tobacco from India in 2022 which are represented below:

Top 4 supplier nations of Unmanufactured Tobacco to Germany in 2022 (percentage share):

Top 3 supplier nations of Unmanufactured Tobacco to Poland in 2022 (percentage share):

b. Women's Shirts or Blouses (ITCHS Code – 6206)

A **blouse** is a loose-fitting upper garment that has been traditionally worn by workmen, peasants, artists, women, and children. It is typically gathered at the waist or hips (by tight hem, pleats, or belt) so that it hangs loosely over the wearer's body. Today, the word most commonly refers to a girl's or woman's dress. Traditionally, the term has been used to refer to a shirt which unmistakably has a feminine appearance. Blouses usually consist of light fabrics such as silk or thin cotton fabrics, and are often made of soft synthetic fibers (e.g. polyester).

ITCHS defined that Blouses are loose-fitting garments also designed to cover the upper part of the body but may be sleeveless and with or without an opening at the neckline. Blouses may also have a collar.

Leading Importers of Women's Shirts or Blouses globally from 2019 to 2022
Data labels signified for 2022

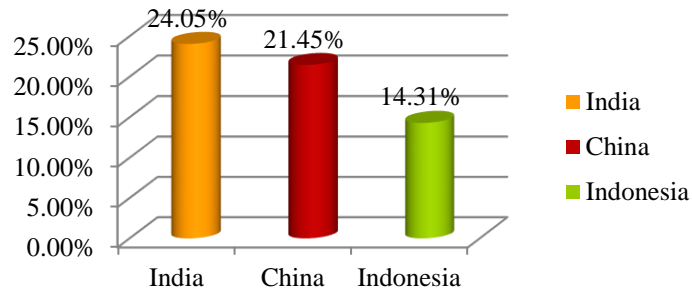

World's 5 leading importers of Women's Shirts or Blouses by percentage share in 2022

Women's Shirts or Blouses imports worldwide was almost US\$ 12009million in 2022 and registered an increase by 9.04% from 2021 levels. Over the period under review i.e. 2019-2022, global imports were at record high at US\$ 14064.15Million in 2019 i.e. in the pre Covid-19 pandemic hit year. The lead importers in this segment in 2022 have been USA (18.52%), Germany (9.19%), and Japan (7.37%) and India with a share of only 0.32% of global imports in this segment of goods stood at 39th position in 2022. India's import share has consistently remained below 0.50% mark.

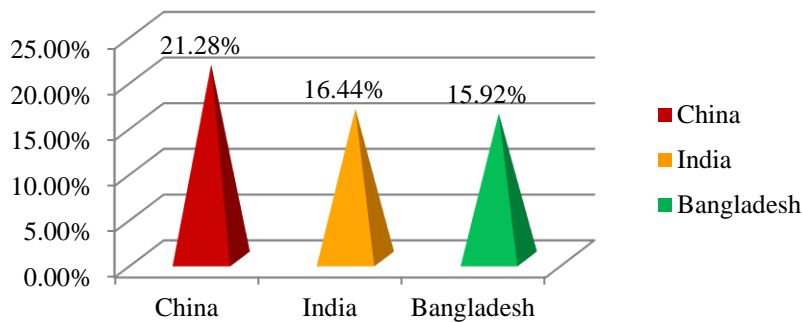

Annexure-II

(i) Top 3 supplier nations of Women's Shirts or Blouses to USA in 2022 (percentage share)

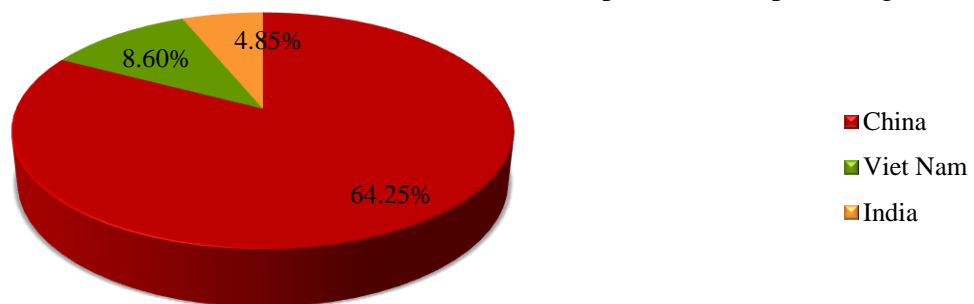

As per UN Comtrade Database, USA the lead importer in this segment had highest share of import from India (24.05%) in 2022 followed closely by China (21.45%) and Indonesia (14.31%).

(ii) Top 3 supplier nations of Women's Shirts or Blouses to Germany in 2022 (percentage share)

In 2022 as per UN Comtrade Database, Germany had imported 16.44 % of total Women's Shirts or Blouses from India, followed by Bangladesh (15.92%). However, the dominant player was China with a share of 21.28%.

(iii) Top 3 supplier nations of Women's Shirts or Blouses to Japan in 2022 (percentage share)

With 4.85% share of Japan's total imports of Women's Shirts or Blouses, India became the 3rd largest source of it to Japan in 2022. Other two major sources of Japan for this commodity were China-the lead player (64.25%) and Viet Nam(8.60%).

IMPORT

a. Colloidal Precious Metals (ITCHS Code – 2843)

Colloidal Precious Metals having ITC HS Code of 2843 comprises several categories of goods classified as colloidal precious metals and compounds of gold, silver and other metals under Chapter 28 Indian Trade Classification.

Note: India's Import including re-import

The total amount of India's import in this segment in 2022 stood at US\$ 1903.73 million registering a slight decline of approximately 2.60% over 2021 levels. In 2022, Japan stood out as India's top importing partner in this segment with a share of 92.83% registering a significant leap over the 2021 levels. Japan's share has been consistently rising and along-side deceleration is observed in the shares of Germany and USA.

Source: UN Comtrade

In 2022, the total global imports of goods in this segment amounted to US\$ 8933.60million, decreasing by more than 9.63% vis-a-vis the previous year's figure. In 2022 **India** has occupied the top slot by way of importing upto 21.34 % of global imports of Colloidal of Precious Metals. Next in line comes Mexico and Germany with 9.91% and 7.01 % shares respectively, but way too less compared to India. India's import share in this segment has been steadily increasing over the years as observable from 2019 to 2022 in above table.

b. Electric Generating Sets and Rotary Converters (ITCHS Code – 8502)

Electric Generating Sets and Rotary Converters having ITC HS Code of 8502 comprises several categories of generating sets and rotary converters under Chapter 85 of Indian Trade Classification.

Note: India's Imports including re-imports

In 2022 India had imported a total of USD 134.51 million worth of merchandise in this segment which is significantly more than 2021 and 2020 levels (the years hit by Covid-19 pandemic). 2019 the year exactly preceding the pandemic hit year had very high levels of imports in this segment.

USA, Germany, China have been major destinations for India's imports in this category and for year 2022, USA has a share of 30.11% which is followed by Germany and China (these two nations having neck-to-neck shares of 15.58% & 15.10% respectively) and Finland significantly occupying the fourth position with its share being a stupendous 10.64% for the first time in the reference period of 2019-2022.

Source: UN Comtrade

Worldwide import of Electrical Generating Sets and Rotary Converters totaled US\$ 21416.28 million in 2022. The overall value of Electrical Generating Sets and Rotary Converters imports declined by around 14.49% in 2022 vis-a-vis 2021. USA imported US\$ 2643.79 million worth of the commodity in 2022, making it the leading importer of the commodity group worldwide with 12.34% share of world imports. Canada (6.45%) and UK (4.31%) lined up in second and third place in 2022. The import value of Electrical Generating Sets and Rotary Converters into India amounted to approximately US \$ 133.62 million in the year 2022 and India ranked 40th in the world with the share of 0.62% of total global import value of goods in this segment experiencing a leap from 0.28% share in 2021.
